Dear Parents,

I am writing to update you about the clock tower renovations.

Firstly I am really pleased to be able to tell you that the school has now secured additional emergency funding from Milton Keynes Council to complete the renovation of the clock tower.

The clock is currently being restored in Derby and the spire and bell will be removed from the school roof next Saturday the 26th of November using a large mobile crane.

Our immediate neighbours have already been informed of this as it will affect the car parking area on that day and I have written a piece for First Hand which will go out to the whole village this week so that everyone will know what is happening.

The scaffolding will then come down and the tower will be rebuilt off site by our builder and will be replaced during the half term holiday week in February 2012. The clock will be re installed once this is complete. The whole project is being managed for us by Milton Keynes architecture department.

This is really good news because the additional funding means that not only will the tower be restored but we can also continue with the plans for the development of the playground area. We now have a completed plan which has been sent to Milton Keynes for approval. We can then begin the process of getting quotes and organising any fundraising events that may be necessary.

Yours,

Julie Baldwin
